Inhalation	Remove to fresh air. Keep warm and at rest. If breathing is laboured, hold in a half upright position (this assists respiration). Apply artificial respiration if breathing has stopped. Seek URGENT medical attention for all but the most minor cases of over exposure.
Safety Phrase	S2 - Keep out of reach of children S23 -Do not breathe vapour S24 -Avoid contact with skin S62 -If swallowed, do not induce vomiting: seek medical advice immediately and show container or label to medical staff.

www.rxmarine.com

FLAMMABLE	Solvent vapours can form explosive mixtures with air in poorly ventilated conditions. Containers may explode if heated. Vapour is heavier than air and may travel along the ground, distant ignition is possible. Wear self contained breathing apparatus. If possible remove containers from the vicinity of the fire. Otherwise keep containers as cool as possible by spraying with water, from a protected position.
Extinguishing Media	Foam, powder (bicarbonate or ammonium phosphate based) or carbon dioxide. Water is not effective for fire fighting and direct contact with water should be avoided.
