

# RXSOL

VARANASI CHEMICAL | RX MARINE INTERNATIONAL

**RXSOL-19-1321-025**

HEXYLENE GLYCOL

## Material Safety Data Sheet (MSDS)

[www.rxmarine.com](http://www.rxmarine.com)

### 1. Product and Company Identification

|              |   |                        |
|--------------|---|------------------------|
| Product Name | : | RXSOL-16-1050-025      |
| Product Type | : | Drain Cleaner Alkaline |

#### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

|       |   |                                                          |
|-------|---|----------------------------------------------------------|
| Phone | : | +91 22 65113333 / 5555 / 9999 / 27611360                 |
| Fax   | : | +91 22 2781 1318 ::::AOH :0091 9821214367                |
| Email | : | <a href="mailto:mail@rxmarine.com">mail@rxmarine.com</a> |

### 2. Composition / Information on ingredients

| Chemical Name                          | Concentration  | CAS Number | EC Number              | R Phrases* | Symbols |
|----------------------------------------|----------------|------------|------------------------|------------|---------|
| Potassium Hydroxide<br>S.T.P.Phosphate | 50-52<br>20-25 | 1310-58-3  | 215-185-6<br>231-838-7 | 35<br>NE   | C<br>NE |
| Nonclassified ingredients              | 70-90          |            |                        |            |         |

\*See Section 16

[www.rxmarine.com](http://www.rxmarine.com)

### 3. Hazards Identification

|                   |                                                          |
|-------------------|----------------------------------------------------------|
| Odour             | Odourless.                                               |
| Appearance        | Liquid,colourless to yellow,soluble in water.            |
| Contact with eyes | Corrosive to eyes, Can cause damage to the eyes.         |
| Contact with skin | Causes severe burns (R35).                               |
| Inhalation        | No information available but must be considered harmful. |
| Ingestion         | Harmful if swallowed (R22).                              |

[www.rxmarine.com](http://www.rxmarine.com)

### 4. First Aid Measures

|                   |                                                                                                                                                                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Contact with skin | Remove contaminated clothing immediately and drench affected skin with plenty of water Then wash with soap and water.Seek medical advice if necessary                                                                                          |
| Contact with eyes | If substance has got into eyes, immediately wash out with plenty of water for at least 15 minutes. Irrigate eyes thoroughly whilst lifting eyelids.Obtain immediate medical attention. Continue flushing with water until medical help arrives |
| Ingestion         | Do not induce vomiting.Never give anything by mouth to an unconscious person.Give water or milk to drink.Obtain immediate medical attention.                                                                                                   |
| General           | In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible) (S45) -When in doubt or symptoms persist, seek medical attention                                                                    |

## 5. Fire-fighting Measures

www.rxmarine.com

- Non combustible
- Smoke from fires is corrosive
- Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions
- Vapour density - not applicable

## 6. Accidental Release Measures

www.rxmarine.com

|                           |                                                                                                                                                 |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal Precautions      | Wear protective clothing as per section 8.                                                                                                      |
| Environmental Precautions | Do not flush spilt material into any public water system.                                                                                       |
| Clean Up Actions          | Absorb spillage in inert material and shovel up.Ventilate the area and wash spill site after material pick-up is complete.Neutralise with Acid. |
| Special Precautions       | Wear protective clothing as per section 8.                                                                                                      |

## 7. Handling and Storage

www.rxmarine.com

|          |                                                                                                    |
|----------|----------------------------------------------------------------------------------------------------|
| Handling | Eyewash bottles should be available.See Section 8                                                  |
| Storage  | Keep only in the original container in a cool, well ventilated place (S3/9/49).Protect from frost. |

## 8. Exposure controls and personal protection

www.rxmarine.com

|                                |                                                                                                                                                                                      |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure Limits                | OES / LTEL # ppm 2 mg/m3.(Potasium hydroxide)                                                                                                                                        |
| Exposure controls              | No special ventilation is required unless the product is used in a spray form                                                                                                        |
| Occupational exposure controls | Wear suitable protective clothing, including eye/face protection and gloves (plastic or rubber are recommended).During fumigation/spraying wear suitable respiratory equipment (S42) |

## 9. Physical and chemical properties

www.rxmarine.com

|            |                                                  |
|------------|--------------------------------------------------|
| Odour      | Odourless                                        |
| Appearance | Liquid, colourless to yellow, soluble in water   |
| PH         | 11.5 - 12.5 at 0.1 % concentration , Neat : 14.0 |

|                             |                       |
|-----------------------------|-----------------------|
| Boiling point               | >100 °C at 760 mm /Hg |
| Vapour pressure             | not known             |
| Vapour density              | not applicable        |
| Freezing point              | 0 °C at 760 mm/Hg     |
| Completely soluble in water |                       |
| Specific gravity            | (water=1) 1.30        |
| Non combustible             |                       |

## 10. Stability and reactivity

www.rxmarine.com

- This article is considered stable under normal conditions
- Avoid overheating, Keep away from frost
- Incompatible with acid
- See Section 5

## 11. Toxicological information

www.rxmarine.com

|                           |                                                                                                               |
|---------------------------|---------------------------------------------------------------------------------------------------------------|
| Toxicological information | The ingestion of significant quantities may cause burning sensation.Can cause damage to the digestive system. |
| Inhalation                | Not regarded as a potential route of exposure. Can cause damage to the respiratory system.                    |
| Contact with skin         | Causes severe burns (R35)                                                                                     |
| Contact with eyes         | Causes severe burns (R35)                                                                                     |
| Ingestion                 | The ingestion of significant quantities may cause damage to digestive system.                                 |
| Carcinogenicity           | No evidence of carcinogenic effects.                                                                          |

## 12. Ecological information

www.rxmarine.com

|                                  |                                                                                                                                                                  |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ecotoxicity                      | May cause acute effects in the aquatic environment.                                                                                                              |
| Mobility                         | Completely soluble in water.                                                                                                                                     |
| Persistence and Biodegradability | Degrades by hydrolysis                                                                                                                                           |
| Bioaccumulation Potential        | Bioaccumulation is insignificant                                                                                                                                 |
| Other Adverse Effects            | No environmental problems are expected when the product is used / handled correctly. In its intended use, the product will not be released into the environment. |

## 13. Disposal considerations

www.rxmarine.com

|                |                                                                                                    |
|----------------|----------------------------------------------------------------------------------------------------|
| Classification | This material and/or its container must be disposed of as hazardous waste.EU Waste class: 06 02 02 |
|----------------|----------------------------------------------------------------------------------------------------|

|                         |                                                                                                                                                                              |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal considerations | Do not discharge into drains or the environment, dispose to an authorised waste collection point. Disposal should be in accordance with local, state or national legislation |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 14. Transport information
