

# RXSOL

VARANASI CHEMICAL | RX MARINE INTERNATIONAL

**RXSOL-19-1629-210**

Creosote Oil

## Material Safety Data Sheet (MSDS)

[www.rxmarine.com](http://www.rxmarine.com)

### 1. Product and Company Identification

|              |                                                                  |
|--------------|------------------------------------------------------------------|
| Product Name | RXSOL-22-2006-030                                                |
| Product Type | Oil water Separator 25 Ltr ( <b>Chembreak Emulsion Breaker</b> ) |

#### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

|       |                                                          |
|-------|----------------------------------------------------------|
| Phone | +91 22 65113333 / 5555 / 9999 / 27611360                 |
| Fax   | +91 22 2781 1318 ::::AOH :0091 9821214367                |
| Email | <a href="mailto:mail@rxmarine.com">mail@rxmarine.com</a> |

### 2. Composition / Information on ingredients

| Chemical Name                | Concentration | CAS Number | EC Number | R Phrases* | Symbols |
|------------------------------|---------------|------------|-----------|------------|---------|
| White spirit (de-aromatized) | 60-100        | 64742-48-9 | 265-150-3 | 65,66      | Xn      |
| Sodium petroleum sulphonate  | 5-10          | 68608-26-4 | 271-781-5 | 36         | Xi      |

\*See Section 16

[www.rxmarine.com](http://www.rxmarine.com)

### 3. Hazards Identification

|                   |                                                                                                                       |
|-------------------|-----------------------------------------------------------------------------------------------------------------------|
| Odour             | Smells of hydrocarbon.                                                                                                |
| Appearance        | Liquid, brown, insoluble in water.                                                                                    |
| Contact with eyes | Causes redness and irritation.                                                                                        |
| Contact with skin | Prolonged skin contact will result in defatting of the skin, leading to irritation, and in some cases, dermatitis.    |
| Inhalation        | In cases of severe exposure, anaesthesia may develop, May cause chronic pneumonitis, May cause coughing.              |
| Ingestion         | Harmful: may cause lung damage if swallowed (R65), The ingestion of significant quantities.may cause nausea/vomiting. |

#### 4. First Aid Measures

www.rxmarine.com

|                   |                                                                                                                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Contact with skin | Remove contaminated clothing immediately and drench affected skin with plenty of water Contaminated clothing should be laundered before reuse Seek medical attention if irritation persists.                   |
| Contact with eyes | If substance has got into eyes, immediately wash out with plenty of water for at least 15 minutes Irrigate eyes thoroughly whilst lifting eyelids When in doubt or symptoms persist, seek medical attention.   |
| Ingestion         | Do not induce vomiting because of risk of aspiration into the lungs. If aspiration is suspected obtain immediate medical attention If vomiting occurs turn patient on side Obtain immediate medical attention. |
| Inhalation        | Remove patient to fresh air Seek medical attention if ill effects occur.                                                                                                                                       |
| General           | In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible) (S45).                                                                                              |

#### 5. Fire-fighting Measures

www.rxmarine.com

- Auto-ignition point 225 deg C at 760 mm Hg
- Flash point 66 deg C (CC)
- Decomposition products may include carbon oxides
- In case of fire use water spray or fog, alcohol resistant foam, dry chemical or carbon dioxide (S43)
- Do not use water jets
- Prevent run off water from entering drains if possible
- Vapours are heavier than air and may travel considerable distances to a source of ignition and flashback

#### 6. Accidental Release Measures

www.rxmarine.com

|                           |                                                                                                                            |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Personal Precautions      | Wear protective clothing as per section 8.                                                                                 |
| Environmental Precautions | Do not allow to enter public sewers and watercourses.                                                                      |
| Immediate Actions         | Contain spillage by any means possible.                                                                                    |
| Clean Up Actions          | Absorb spillage in inert material and shovel up Ventilate the area and wash spill site after material pick-up is complete. |
| Special Precautions       | Do not allow to enter public sewers and watercourses Wear protective clothing as per section 8.                            |

#### 7. Handling and Storage

www.rxmarine.com

|          |                                                                                                                                                                                     |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Handling | Avoid contact with skin and eyes (S24/25) Eyewash bottles should be available See Section 8.                                                                                        |
| Storage  | Keep only in the original container in a cool, well ventilated place (S3/9/49) Keep container tightly closed (S7) Keep away from open flames, hot surfaces and sources of ignition. |

#### 8. Exposure controls and personal protection

www.rxmarine.com

|                                |                                                                                                                                                                                                                                                                                |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure Limits                | TLV (TWA) 275 mg/m3 (White spirit (de-aromatized)).                                                                                                                                                                                                                            |
| Exposure controls              | No special ventilation is required unless the product is used in a spray form.                                                                                                                                                                                                 |
| Occupational exposure controls | No respiratory protection is required unless subject to contact with substance mist<br>During fumigation/spraying wear suitable respiratory equipment (S42) Wear suitable protective clothing, including eye/face protection and gloves (neoprene or nitrile are recommended). |

## 9. Physical and chemical properties

www.rxmarine.com

|                       |                                   |
|-----------------------|-----------------------------------|
| Odour                 | Smells of hydrocarbon             |
| Appearance            | Liquid, brown, insoluble in water |
| pH                    | not applicable                    |
| Boiling point         | 195 °C at 760 mm /Hg              |
| Vapour pressure       | 1 mbar                            |
| Vapour density        | (air = 1) >1                      |
| Melting point         | not known                         |
| Insoluble in water    | Specific gravity /(water=1) 0.79  |
| Flash point           | 66 deg C (CC)                     |
| Auto-ignition point   | 225 deg C at 760 mm Hg            |
| Lower explosive limit | 0.6 % (in air)                    |

## 10. Stability and reactivity

www.rxmarine.com

- This article is considered stable under normal conditions
- Keep away from naked flames, incandescent or hot surfaces
- See Section 5

## 11. Toxicological information

www.rxmarine.com

|                           |                                                                                                                    |
|---------------------------|--------------------------------------------------------------------------------------------------------------------|
| Toxicological information | No experimental data available.                                                                                    |
| Inhalation                | Inhalation of solvent vapours may give rise to nausea, headaches and dizziness.                                    |
| Contact with skin         | Prolonged skin contact will result in defatting of the skin, leading to irritation, and in some cases, dermatitis. |
| Contact with eyes         | May cause redness and irritation.                                                                                  |
| Ingestion                 | The ingestion of significant quantities may cause gastro-intestinal disturbances<br>Aspiration hazard.             |
| Carcinogenicity           | No evidence of carcinogenic effects.                                                                               |

## 12. Ecological information

www.rxmarine.com

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ecotoxicity                      | This product has been evaluated on its behaviour in the environment by "The TNO Institute of Environmental Sciences" (The Netherlands organisation for applied Scientific Research). Based upon their report, IMO's BCH Working Group on the Evaluation of Safety and Pollution Hazards approved this product for use as tank cleaning agent by chemical tankers. Naphtha : LC50 (fish) >100 mg/l (96 hr). EC50 (daphnia) >100 mg/l (72 hr). IC50 (algae) >100 mg/l (72 hr) |
| Mobility                         | Insoluble in water                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Persistence and Biodegradability | BOD28/COD > 60% (Naphtha) Sodium petroleum sulphonate: Not readily biodegradable                                                                                                                                                                                                                                                                                                                                                                                            |
| Bioaccumulation Potential        | No information available                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Other Adverse Effects            | No environmental problems are expected when the product is used / handled correctly. In its intended use, the product will not be released into the environment.                                                                                                                                                                                                                                                                                                            |

### 13. Disposal considerations

[www.rxmarine.com](http://www.rxmarine.com)

|                         |                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Classification          | This material and/or its container must be disposed of as hazardous waste.EU Waste class: 07.01                                                                             |
| Disposal considerations | Do not discharge into drains or the environment, dispose to an authorised waste collection point Disposal should be in accordance with local, state or national legislation |

### 14. Transport information

[www.rxmarine.com](http://www.rxmarine.com)

- Not classified as hazardous for transport

### 15. Regulatory information

[www.rxmarine.com](http://www.rxmarine.com)

|                |                                                                                                                                                                                                                              |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
