

# RXSOL

VARANASI CHEMICAL | RX MARINE INTERNATIONAL

**RXSOL-20-T300-020**

TPOL Heavy Duty 20 Ltr

## Material Safety Data Sheet (MSDS)

### 1. Product and Company Identification

[www.rxmarine.com](http://www.rxmarine.com)

|              |                     |
|--------------|---------------------|
| Product Name | Battery Acid 25 LTR |
| Part Number  | RXSOL-15-1103-025   |

#### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Branch : Kandla, Mumbai , Chennai, Vizag, Kolkata, UAE , OMAN , CANADA and KENYA

|         |                                                          |

#### Substances

|                  |                                 |
|------------------|---------------------------------|
| Formula          | H <sub>2</sub> O <sub>4</sub> S |
| Molecular weight | 98,08 g/mol                     |
| CAS-No.          | 7664-93-9                       |
| EC-No.           | 231-639-5                       |
| Index-No.        | 016-020-00-8                    |

| Component      | Classification | Concentration |
|----------------|----------------|---------------|
| Sulphuric acid |                |               |

|           |              |                                                                                                                              |            |
|-----------|--------------|------------------------------------------------------------------------------------------------------------------------------|------------|
| CAS-No.   | 7664-93-9    | Met. Corr. 1; Skin Corr. 1A; Eye Dam. 1; H290, H314, H318                                                                    | <= 25-30 % |
| EC-No.    | 231-639-5    | Concentration limits:                                                                                                        |            |
| Index-No. | 016-020-00-8 | >= 15 %: Skin Corr. 1A, H314; 5 - < 15 %: Skin Irrit. 2, H315; 5 - < 15 %: Eye Irrit. 2, H319; >= 0,3 %: Met. Corr. 1, H290; |            |

### 3. Hazards Identification

[www.rxmarine.com](http://www.rxmarine.com)

#### Classification of the substance or mixture

|                                   |                                                |
|-----------------------------------|------------------------------------------------|
| Corrosive to Metals, (Category 1) | H290: May be corrosive to metals.              |
| Skin corrosion, (Sub-category 1A) | H314: Causes severe skin burns and eye damage. |
| Serious eye damage, (Category 1)  | H318: Causes serious eye damage.               |

#### Label elements

|                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|                                                                            |                                                                                                                                                                    |
|----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General Advice                                                             | First aiders need to protect themselves. Show this material safety data sheet to the doctor in attendance.                                                         |
| If inhaled                                                                 | After inhalation: fresh air. Call in physician.                                                                                                                    |
| In case of skin contact                                                    | In case of skin contact: Take off immediately all contaminated clothing. Rinse skin with water/ shower. Call a physician immediately.                              |
| In case of eye contact                                                     | After eye contact: rinse out with plenty of water. Immediately call in ophthalmologist. Remove contact lenses.                                                     |
| If swallowed                                                               | After swallowing: make victim drink water (two glasses at most), avoid vomiting (risk of perforation). Call a physician immediately. Do not attempt to neutralise. |
| Most important symptoms and effects, both acute and delayed                | The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11                                                |
| Indication of any immediate medical attention and special treatment needed | No data available                                                                                                                                                  |

#### 5. Fire-fighting Measures

[www.rxmarine.com](http://www.rxmarine.com)

|                                                       |                                                                                                                                                                |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                          | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                        |
| Unsuitable extinguishing media                        | For this substance/mixture no limitations of extinguishing agents are given.                                                                                   |
| Special hazards arising from the substance or mixture | <p>Sulfur oxides</p> <p>Not combustible.</p> <p>Ambient fire may liberate hazardous vapours.</p>                                                               |
| Advice for firefighters                               | Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing   |
| Further information                                   | Suppress (knock down) gases/vapors/mists with a water spray jet. Prevent fire extinguishing water from contaminating surface water or the ground water system. |

#### 6. Accidental Release Measures

[www.rxmarine.com](http://www.rxmarine.com)

|                                                                     |                                                                                                                                                                                                                                                            |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | <p>Advice for non-emergency personnel: Do not breathe vapors, aerosols. Avoid substance contact. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, consult an expert.</p> <p>For personal protection see section 8.</p> |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                                      |                                                                                                                                                                                                                                                                                  |
|------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Environmental precautions                            | Do not let product enter drains.                                                                                                                                                                                                                                                 |
| Methods and material for containment and cleaning up | Cover drains. Collect, bind, and pump off spills. Observe possible material restrictions (see sections 7 and 10). Take up with liquid-absorbent and neutralising material (e.g. Chemizorb® H <sup>+</sup> , Merck Art. No. 101595). Dispose of properly. Clean up affected area. |
| Reference to other sections                          | For disposal see section 13.                                                                                                                                                                                                                                                     |

## 7. Handling and Storage

[www.rxmarine.com](http://www.rxmarine.com)

|                                                              |                                                                                    |
|--------------------------------------------------------------|------------------------------------------------------------------------------------|
| Precautions for safe handling                                | For precautions see section 2.2.                                                   |
| Conditions for safe storage, including any incompatibilities |                                                                                    |
| Storage conditions                                           | No metal containers.<br>Tightly closed.                                            |
| Storage class                                                | Storage class (TRGS 510): 8B: Non-combustible, corrosive hazardous materials       |
| Specific end use(s)                                          | Apart from the uses mentioned in section 1.2 no other specific uses are stipulated |

## 8. Exposure controls and personal protection

[www.rxmarine.com](http://www.rxmarine.com)

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye/face protection               | Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Tightly fitting safety goggles                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Skin protection                   | This recommendation applies only to the product stated in the safety data sheet, supplied by us and for the designated use. When dissolving in or mixing with other substances and under conditions deviating from those stated in EN 16523-1.<br><br>This recommendation applies only to the product stated in the safety data sheet, supplied by us and for the designated use. When dissolving in or mixing with other substances and under conditions deviating from those stated in EN 16523-1.<br>Splash contact<br>Material: butyl-rubber<br>Minimum layer thickness: 0,7 mm<br>Break through time: 120 min |
| Body Protection                   | Acid-resistant protective clothing                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Respiratory protection            | Recommended Filter type: Filter type P2 The entrepreneur has to ensure that maintenance, cleaning and testing of respiratory protective devices are carried out according to the instructions of the producer. These measures have to be properly documented.                                                                                                                                                                                                                                                                                                                                                      |
| Control of environmental exposure | Do not let product enter drains.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## 9. Physical and chemical properties

[www.rxmarine.com](http://www.rxmarine.com)

|                                         |                         |
|-----------------------------------------|-------------------------|
| Physical state                          | Clear, liquid           |
| Color                                   | Colorless               |
| Odor                                    | Odorless                |
| Melting point/freezing point            | Melting point: 10,31 °C |
| Initial boiling point and boiling range | 290 °C - lit.           |

|                                        |                                                                                  |
|----------------------------------------|----------------------------------------------------------------------------------|
| Flammability (solid, gas)              | No data available                                                                |
| Flammability or explosive limits       | No data available                                                                |
| Flash point                            | No data available                                                                |
| Autoignition temperature               | No data available                                                                |
| Decomposition temperature              | No data available                                                                |
| pH                                     | 1,2 at 5 g/l                                                                     |

| Endocrine disrupting properties Product            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Assessment                                         | <p>The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.</p> <p>RTECS: WS5600000</p> <p>Material is extremely destructive to tissue of the mucous membranes and upper respiratory tract, eyes, and skin., spasm, inflammation and edema of the larynx, spasm, inflammation and edema of the bronchi, pneumonitis, pulmonary edema, burning sensation, Cough, wheezing, laryngitis, Shortness of breath, Headache, Nausea, Vomiting, Pulmonary edema.</p> <p>Effects may be delayed.</p> <p>To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.</p> <p>After inhalation of aerosols: damage to the affected mucous membranes. After skin contact: severe burns with formation of scabs. After eye contact: burns, corneal lesions.</p> <p>After swallowing: severe pain (risk of perforation!), nausea, vomiting and diarrhoea.</p> <p>After a latency period of several weeks possibly pyloric stenosis.</p> <p>Other dangerous properties can not be excluded.</p> <p>Handle in accordance with good industrial hygiene and safety practice.</p> |
