

# RXSOL

VARANASI CHEMICAL | RX MARINE INTERNATIONAL

## RXSOL-40-4023-020

Corrosion Inhibitor Nitrite Borax based

## Material Safety Data Sheet (MSDS)

### 1. Product and Company Identification

[www.rxmarine.com](http://www.rxmarine.com)

|              |                                         |
|--------------|-----------------------------------------|
| Product Name | <b>ORG BRITE Black Oil Tank Cleaner</b> |
| Part Number  | <b>RXSOL-20-0661-025</b>                |

#### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

|       |                                                          |
|-------|----------------------------------------------------------|
| Phone | +91 22 27815541 / 42                                     |
| Fax   | +91 22 2781 1318 ::::AOH :0091 9821214367                |
| Email | <a href="mailto:mail@rxmarine.com">mail@rxmarine.com</a> |

### 2. Composition / Information on ingredients

[www.rxmarine.com](http://www.rxmarine.com)

Ethoxylated Fatty alcohol, Proprietary blend compound with Linear Alkyl derivative remaining which is not in the list as Hazardous materials .

\*See Section 16

### 3. Hazards Identification

[www.rxmarine.com](http://www.rxmarine.com)

|                   |                                                                                        |
|-------------------|----------------------------------------------------------------------------------------|
| Odour             | Glycol Odor                                                                            |
| Appearance        | Liquid, Light or dark Brown, soluble in water.                                         |
| Contact with eyes | Risk of serious damage to eyes (R41).                                                  |
| Contact with skin | Repeated exposure may cause skin dryness or cracking (R66), Mildly irritating to skin. |
| Inhalation        | Vapours or aerosols may cause irritation of eyes, nose and respiratory tract.          |
| Ingestion         | The ingestion of significant quantities may cause gastro-intestinal disturbances.      |

### 4. First Aid Measures

[www.rxmarine.com](http://www.rxmarine.com)

|                   |                                                                                                                       |
|-------------------|-----------------------------------------------------------------------------------------------------------------------|
| Contact with skin | Remove contaminated clothing immediately and drench affected skin with plenty of water. Then wash with soap and water |
|-------------------|-----------------------------------------------------------------------------------------------------------------------|

|                   |                                                                                                                        |
|-------------------|------------------------------------------------------------------------------------------------------------------------|
| Contact with eyes | If substance has got into eyes, immediately wash out with plenty of water for at least 15 minutes. Seek medical advice |
| Ingestion         | Never give anything by mouth to an unconscious person. Give plenty of water to drink. Seek medical advice if necessary |
| Inhalation        | Vapours or aerosols may cause irritation of eyes, nose and respiratory tract. Remove patient to fresh air              |
| General           | In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible) (S45)       |

## 5. Fire-fighting Measures

[www.rxmarine.com](http://www.rxmarine.com)

- Non combustible
- Carbon oxides may be formed
- Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions

## 6. Accidental Release Measures

[www.rxmarine.com](http://www.rxmarine.com)

|                           |                                                                                                                                                                          |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal Precautions      | Wear protective clothing as per section 8.                                                                                                                               |
| Environmental Precautions | Direct flow into drainage system, surface or ground water is prohibited. First of all neutralize with alkaline materials like lime powder for pH balancing between 6-10. |
| Immediate Actions         | Shut off source of leak if safe to do so.                                                                                                                                |
| Clean Up Actions          | Absorb spillage in suitable inert material.                                                                                                                              |
|                           | Flush spill area with copious amounts of water.                                                                                                                          |
| Special Precautions       | Wear protective clothing as per section.                                                                                                                                 |

## 7. Handling and Storage

[www.rxmarine.com](http://www.rxmarine.com)

|          |                                                                                                       |
|----------|-------------------------------------------------------------------------------------------------------|
| Handling | The usual precautions for handling chemicals should be observed. Eyewash bottles should be available. |
| Storage  | Keep only in the original container in a cool, well ventilated place (S3/9/49). Protect from frost.   |

Note : The product causes corrosion on skin and mucous membranes. Note that in case of discharge of acidic or alkaline products into the sewerage system the pH must be in the range of 6-10 since higher or lower pH values may damage the sewerage system or impair biological dosage treatment plants. So that for maintaining pH we have to add acidic / basic medium neutraliser. For example if pH is less than 6 basic neutralizer is required and if pH is more than 10 acidic neutraliser is required. For details of any guideline pl. Visit our technical website [www.rxmarine.com](http://www.rxmarine.com)

## 8. Exposure controls and personal protection

[www.rxmarine.com](http://www.rxmarine.com)

|                                |                                                                                                                                                                                                       |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure Limits                | There are no recommended or established controls for this product                                                                                                                                     |
| Exposure controls              | No special ventilation is required unless the product is used in a spray form                                                                                                                         |
| Occupational exposure controls | No respiratory protection is required unless subject to contact with substance mist<br>Wear suitable protective clothing, including eye/face protection and gloves(plastic or rubber are recommended) |

Gogle

## 9. Physical and chemical properties

[www.rxmarine.com](http://www.rxmarine.com)

|                             |                                       |
|-----------------------------|---------------------------------------|
| Odour                       | Butyl Order                           |
| Appearance                  | Liquid, Clear Brown, soluble in water |
| pH                          | 1.5 at 10 % concentration             |
| Boiling point               | 100 °C at 760 mm /Hg                  |
| Vapour pressure             | not known                             |
| Freezing point              | < 0 °C at 760 mm/Hg                   |
| Completely soluble in water |                                       |
| Specific gravity (water=1)  | 1.17 - 1.2 @20°C                      |
| Non combustible             |                                       |

## 10. Stability and reactivity

[www.rxmarine.com](http://www.rxmarine.com)

- This article is considered stable under normal conditions, No hazardous reactions known if used for its intended purpose.

NOTE : AVOID CONTACT WITH ALKALINE SUBJECT

## 11. Toxicological information

[www.rxmarine.com](http://www.rxmarine.com)

|                           |                                                                                   |
|---------------------------|-----------------------------------------------------------------------------------|
| Toxicological information | No experimental data available.                                                   |
| Inhalation                | Vapours or aerosols may cause irritation of eyes, nose and respiratory tract.     |
| Contact with skin         | In cases of severe exposure, irritation may develop.                              |
| Contact with eyes         | Causes irritation.                                                                |
|                           | Can cause damage to the eyes.                                                     |
| Ingestion                 | The ingestion of significant quantities may cause gastro-intestinal disturbances. |
| Carcinogenicity           | No evidence of carcinogenic effects.                                              |

## 12. Ecological information

www.rxmarine.com

|                                  |                                                                                                                        |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------|
| Ecotoxicity                      | This cleaning agent consists of readily biodegradable surfactants, all of which have only slight or moderate toxicity. |
| Mobility                         | Completely soluble in water                                                                                            |
| Persistence and Biodegradability | The components in this product are readily biodegradable.                                                              |
| Bioaccumulation Potential        | Bioaccumulation of the components in this product is insignificant.                                                    |
| Other Adverse Effects            | Presents little or no hazard to the environment                                                                        |

## 13. Disposal considerations

www.rxmarine.com

|                         |                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Classification          | EU Waste class: -                                                                                                                                                           |
| Disposal considerations | Do not discharge into drains or the environment, dispose to an authorised waste collection point Disposal should be in accordance with local, state or national legislation |

## 14. Transport information

www.rxmarine.com

- Not classified as hazardous for transport

## 15. Regulatory information

www.rxmarine.com

|                |                                                                                                                                                          |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Risk Phrases   | Risk of serious damage to eyes (R41)                                                                                                                     |
| Safety Phrases | In case of contact with eyes, rinse immediately with plenty of water and seek medical advice (S26).Wear suitable gloves and eye/face protection (S37/39) |
